History of
KENTUCKY PROFESSIONAL REHABILITATION ASSISTANT PROGRAM

What is Kentucky PRA? The Professional Rehabilitation Assistant (PRA) Program is a training program designed to assist professional development of Rehabilitation Assistants within the Kentucky Department for the Blind and the Department of Vocational Rehabilitation. The purpose of the PRA program is to enhance the professionalism of Rehabilitation Assistants and promote the team philosophy of management within both Departments.

In the early part of 1992 Sam Serraglio, Denise Placido, and Elizabeth Rose attended a conference at Pigeon Forge, Tennessee. At that conference a group from the Georgia Professional Rehabilitation Secretaries Program presented their program. Mr. Serraglio was impressed with the idea of how this program could be beneficial for rehabilitation secretaries given the training opportunities. A seminar was scheduled in Atlanta, Georgia in August, 1992 and this program was to be presented so Mr. Serraglio asked Sandra Hodges, Mabel Campbell, Betty Coulton, and Dana Jones to attend.

These four secretaries and Denise Placido met and the PRA program began. This committee met and Dr. Wayne Mulkey, University of Tennessee RCEP Program, was asked to meet with them for his assistance in developing the program and training. Dr. Mulkey and Dr. Jack Cassell became the Program Consultants. In an effort to include all rehabilitation secretaries from both agencies Maryjane Turman, Sandra Sparks, and Lois Carey from DVR were asked to serve on the committee. This new committee first met in February, 1993 and met on a quarterly basis working as a team to achieve the development of this program. Maryjane Turman resigned and Gayle Balentine was appointed to replace her.

The first workshop was held in October, 1994 and after that, many workshops were completed with the last Level III in June, 1999. September 4, 1997 was the first Graduation Day for PRA. Eighty professionals received their Certification from the Professional Rehabilitation Assistant Program.

In June, 1999 twenty-one more completed the three levels of training with Graduation Day November 3, 1999, with an additional 12 individuals graduating April 17, 2003.

The PRA Program continues to offer the opportunity to individuals interested in achieving certification.

Dear

The Professional Rehabilitation Assistant's Program (PRA) is a joint agency certification program, co-sponsored by the Department of Vocational Rehabilitation and the Department for the Blind. The PRA Committee would like you to present on the subject of (Module title) at our next training, scheduled for (dates) at (facility) in (city).

We have taken the liberty of penciling you in on our schedule to speak on (date) from (beginning time) to (ending time). A copy of the learning objectives and goals for your module are enclosed. The participants have a PRA notebook which they bring with them to each training. We will need a copy of all handout materials and print copies of any transparencies you plan to use so we can prepare them for distribution on the first day of the training. We will also need seven (four each if there are two presenters) true/false or multiple choice questions from the material to be covered for testing purposes.

For your convenience, we will convert your materials to alternative formats, however you must provide us a disk containing your material or submit it to me by email. We must have your packet by (deadline date).

Please complete the enclosed presenter's form and return it to me, by (deadline date). This gives us time to arrange for any equipment you may have requested.

We look forward to your participation in our training. However, if for any reason, you are unable to participate in this training, please notify me by (deadline date) so that I can make other arrangements. If you have any questions, please feel free to call me at (phone #).

Sincerely

Dear

The PRA Committee appreciates the time you took from your busy schedule to participate in the Level II training on (date).

As you know, a test was administered on the final day of the training. The criteria, set forth in the PRA Program, for the successful completion of that test is to achieve three (3) out of five (5) correct answers for each of the seven modules. You did well in modules 1-3 and 5-7 but **module 4, Rehabilitation Interviewing Skills**, will need to be completed by writing a research paper dealing with the material contained in the module. The paper, two pages double spaced, is to be **submitted to the PRA Chair within 60 working days of the date of this letter**. I, in turn, will request the appropriate module presenter to review your paper. Upon approval, you will be eligible for Level III along with the rest of your group. **This process is totally confidential.**

We look forward to seeing you again in Level III. You will receive further information about Level III when the date and location are chosen.

Sincerely
